👤 PROFILE

I am a Software Engineer with a focus on Web development. I enjoy tinkering with things and expanding my knowledge. I am a go getter, taking the initiative and putting in the effort to learn whatever skills our project needs to be a success. This might seem generic but I've come to appreciate how building an application involves encountering unpredicted roadblocks, finding solutions and implementing these solutions as quickly as possible.

🎓 EDUCATION

Software engineering degree, Alx Africa 🔗

November 2023 – 2024
Ghana

Relevant Coursework: Built an Airbnb clone, developed a hospital management system, implemented a Simple Shell in C, studied algorithms including linked lists, sorting algorithms, binary trees, search algorithms, and hash tables.

Additional Skills: Proficiency in C, Python, Node.js, Bash Scripting, Git, Nginx, Redis, MySQL, MongoDB, HAProxy, JavaScript, jQuery, Flask among others

West African Senior School Certificate Examination, Dofor Senior High School

August 2017 – 2020
Juapong, Ghana

I graduated with 3 A's and 4 B's in 8 subjects.

The West African Senior School Certificate Examination is a type of standardized test in West Africa. Students who pass the exam receive a certificate confirming their graduation from secondary education.

Front End Development Certification, FreeCodeCamp

freeCodeCamp is a community of people from all around the world who are learning to code together. it is a 501(c)(3) public charity.

👜 PROFESSIONAL EXPERIENCE

Teemboom Comments, FullStack Web Developer 🔗

Ghana

Built a marketable SaaS product as a solo developer within 2 months, making over 80,000 code additions to the product according to GitHub insights. Learnt to deal with unpredicted challenges while keeping my eyes firmly on the product vision.

Jaskin Tech, Front End Web Developer

Ghana

Developed business informational and blog websites equipped with a Content Management System (CMS) for streamlined content management. Acquired and administrated domain names, configuring associated records to enable subdomains.

Crafted comprehensive contracts to ensure integrity and legality in all business transactions.

Expertly curated client-focused content strategies, demonstrating a keen ability to engage audiences and drive meaningful outcomes.

PROJECTS

PARMA Health Care Management System, <https://github.com/James-koduah/parma>

This was a project I completed as part of my Alx Software Engineering Program.

PARMA is a HealthCare app to create, update, delete and get patient records thereby helping health Care institutions to manage their processes more efficiently.

SKILLS

Programming Languages

Python, Nodejs, C

Linux Operating System

Web Servers

Nginx, Apache

Databases

SQL and NoSQL

Version Control

Git

Scripting

Bash
